

CHARLOTTE INSURANCE

Report your Property Claims to our Property Claims Management Services

Property Claims Management covers all types of losses, residential or commercial. Upon assignment, Charlotte Insurance quickly assembles the right team of claims professionals, consultants and project management specialists to settle the claim and prevent further loss while minimizing costs.

Our credentialed network of contractors specialize in emergency response, general repairs, disaster restoration, and all manner of general residential and commercial restoration work. Our services include:

- General Contractor which provides multiple trade services through general contractors for residential and commercial repairs.
- Water Mitigation which provides immediate emergency water extraction to prevent further damage and possible mold.
- Emergency Fire and Smoke Response which provides emergency board up and/or pack out after a fire or major water loss to prevent further damage to property and provide content security
- Roofing which provides a network of contractors who will perform roof repairs and replacement with no overhead and profit when reported as a single-trade claim
- Plumbing Network which provides plumbing repair and leak detection services
- Tree Removal which provides emergency tree removal service from home and/or property
- Catastrophe Response which provides residential and commercial contractor response for emergency or general repairs
